August 16, 2021 9:00 AM (EST)

### A-1 Announces the Appointment of Peter Kransberger as Director of IT

Fort Pierce, FL – A-1 Roof Trusses, a leading manufacturer of pre-engineered wood trusses, announced today that Peter Kransberger has joined A-1 as its new Director of IT.

Peter joins A-1 with a wealth of IT experience, most recently serving as Chief Information Officer at Quest Solutions in St. Johns, Michigan. Jan S. Beck, Executive Vice President and CFO said, “Peter’s experience along with his in-depth knowledge of complex IT solutions, strong leadership skills and passion for growth and innovation will be instrumental in fulfilling A-1’s vision as we continue *Using Technology to Change the Way America Builds Homes*™.”

As a Michigan native, Peter received his Master’s in Business Administration from Central Michigan University and his Bachelor’s in Computer Science from Michigan State University. Peter and his family are in the process of relocating to South Florida.

John R. Herring, President and CEO, said, “We have a strong leadership team like no other in the industry. We look forward to continuing to expand with new products and locations to broaden our base to best serve our customers with new technology, quality and value. Peter will play an integral role in this effort.”

Mike Ruede, Executive Vice President and Chief Operating Officer, and President of the SBCA, the Truss industry’s trade association for the past 2 years, added, “Bringing Peter on board is a huge step in further developing our Viper software which continues to differentiate A-1 in the industry.”

### About A-1

A-1 Roof Trusses, founded in 1977, is headquartered in Fort Pierce, Florida, with almost 300 employees, and is a leading manufacturer of pre-engineered wood trusses. As a well-known innovator with progressive leadership in the industry, its services include design, manufacture, inventory management and supply for the construction industry in the Southeast United States and the Caribbean. A-1 Industries of Georgia LLC’s new production plant is located on 80 acres in Bainbridge, Georgia and is currently under construction. This innovative new facility will be involved in multiple manufacturing processes, using the latest cutting edge computer technologies. A-1 will operate in a totally computerized manufacturing environment, utilizing CNC machines, real time scheduling programs and floor management systems creating efficiencies unmatched in the United States.

A-1 has multiple employment opportunities for candidates looking to be part of A-1’s continued growth and share in A-1’s Core Values – *Own it, Passionate, Honesty, Respect and Innovation*.
